

I was inspired by Purple5262/Lana and her Sew Along for the Split Coaster.
The directions were figured out by Scarlet/Bethan via a phone call. I'm just the one who took the pics and did the work.

I use aprox 1/4" SA on the inside and 1/8" for topstitching so if you like different SAs please adjust your size accordingly. I made the tester 10x10 and it was too big. IMHO the 8x8 made a perfect fit for all our assorted wine glasses. lol we have more than a few.

Cut 1- 8x8" square of woven per coaster

Get your iron out and iron in half diagonally RST (right sides together).

Sew together leaving a hole large enough to turn.

Trim points.

Turn, poking points out for crisper points.

Take 45 degree points to the 90 degree angle.

Press.
Topstitch.
You are done!
